

About us:

After long involvement with commercial waste water treatment solutions, we identified an essential need for clean drinking & bath water for domestic applications.

We have researched and investigated various drinking water systems to achieve good water quality.

As a result of our findings and needs of customers we offer complete solution to water filtration adopting Ultrafiltration Technology using UF Membrane Systems.

We also offer shower and bath filters. We support our products with personal service and installation. All of our products are fully approved, certified and meet health & safety requirements. Our products are also environmentally conscious and safe, reasonable priced and healthy. Clean and pure water for you and your family.

From August 09 we will trade each Wednesday & Saturday at : The Entertainment Quarter located Moore Park (previously Fox Studio)
